Este curso es susceptible de ser reconocido como formación permanente del profesorado para el personal docente de los centros que imparten las enseñanzas reguladas en la Ley Orgánica 2/2006, de Educación, en base al artículo 21 y 29 de la Orden EDU/2886/2011, de 20 de octubre, por la que se regula la convocatoria, reconocimiento, certificación y registro de las actividades de formación permanente del profesorado.

Código 65YJ- ECTS: 1,5

Director

Samuel Bentolila
Professor of Economics at CEMFI

Secretary

Pedro Mira
Professor of Economics at CEMFI

The II CEMFI School of Economics will address three key challenges currently facing our societies. First, we will explore issues raised by ageing, using evidence from SHARE and other longitudinal studies. We will study the impact of retirement on physical and cognitive health. Moreover, since informal caregiving is crucial to meet the growing demand for long-term care, we will analyze how it affects caregivers' labor supply, health, and social networks.
Second, we will review long-term trends in gender inequality, examining global disparities in economic and social outcomes between men and women, and tracing their historical origins. We will then examine possible strategies for addressing these inequalities, with a focus on social norms and how public policy can interact with or challenge them. And third, we will examine the impact of immigration on labor market outcomes. We will discuss the impact of immigrant consumption and labor heterogeneity. We will link theory to empirical research, exploring how to properly measure labor outcomes and obtain identification through plausibly exogenous sources of variation.
The program is organized around these themes, with two morning lectures dedicated to each of them. In the afternoon there will be student presentations and a tutorial session on careers in Economics.
The School is aimed at final year undergraduates and graduate students in Economics. Depending on the availability of places, students may be invited to attend the 4th Banco de España-CEMFI-UIMP Conference on the Spanish Economy, on “Immigration and Industrial Policy: Challenges and Opportunities for Spain”, 3-4 July 2025.

Apertura matrícula
Desde el día 4 de abril de 2025
(plazas limitadas)

Solicitud online

CS

Monday 30 June

09.45 h Welcome
Pedro Mira
Professor of Economics at CEMFI

10.00 h Lecture 1: Ageing and cognitive decline
Yarine Fawaz
Universidad Autónoma de Madrid

12.00 h Lecture 2: Ageing and informal care
Pedro Mira

15.00 h Student presentations

Tuesday 1 July

10.00 h Lecture 3: Gender inequality in historical perspective
Giulia Buccione
Stanford University

12.00 h Lecture 4: Social norms and gender inequality
Giulia Buccione

15.00 h Should I apply for a Master or PhD Program?
Pedro Mira

Wednesday 2 July

10.00 h Lecture 5: The effect of immigration on the labor market (I)
Joan Monras
Universitat Pompeu Fabra

12.00 h Lecture 6: The effect of immigration on the labor market (II)
Joan Monras

15.00 h Student presentations

Samuel Bentolila holds a PhD from MIT and is a Professor of Economics at CEMFI. His research focuses on labor economics, having worked on labor market institutions, unemployment, wages, youth employment, and vocational education. He is a Fellow of the European Economic Association and the Spanish Economic Association, of which he was President. He is a member of the Advisory Boards of the Spanish Independent Fiscal Authority and the Ministry of Inclusion, Social Security and Migration.

Pedro Mira holds a PhD from the University of Minnesota and is a Professor of Economics at CEMFI. His research interests are in the econometrics of structural dynamic models of discrete choice and in Empirical Microeconomics with a particular focus on Economic Demography and the Economics of Ageing. He has worked on the Survey of Health, Ageing and Retirement in Europe as the Spanish country team leader since 2004.
